Mindtrain Experiences

KI-Implementierungs-Journey

1. Create clarity:
Define what AI should do for the business and formulate clear expectations.

2. Build up dat basis:
Identify relevant data sources and ensure data quality and data protection.

3. Prepare the team and culture:
Form an inter-disciplinary AI team and promote an open attitude towards AI.

4. Start a pilot project:
Select a manageable first AI project to learn quickly and iteratively.

5. Prepare for scaling:
Create a roadmap for the wider use of AI and develop standards for the rollout.
